#### How do I copy the colab notebook and save it to my own Google Drive?

Go to “File” and click “Save a Copy in Drive” to make a copy of the notebook. All saved notebooks can be found under the “Colab Notebooks” folder on your own Google Drive.

#### I am still stuck on particular parts of the Colab? What should I do?

If you are stuck on particular parts of Colab, please reach out to Rishika (@Rishika Singh) or Karen (@Karen W) on Slack, and we would be happy to offer help! In addition, we would like to foster an environment of collaboration and highly encourage you to drop a question or comment in our Slack channel dedicated to this study group (#beginner-python-stdy-grp). We are all in this together and ready to learn! :D
